PROFESSIONAL SUMMARY

React.js Frontend Developer with 2+ years of professional experience in designing and developing scalable, responsive, and high-performance web applications using React.js, TypeScript, and modern JavaScript (ES6+). Experienced in building reusable UI components, implementing Redux Toolkit for state management, integrating RESTful APIs, and developing secure authentication systems using JWT. Strong understanding of responsive web design, performance optimization, code splitting, lazy loading, and frontend best practices. Worked closely with cross-functional teams in Agile environments to deliver high-quality, user-centric applications.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript

Frontend Technologies: React.js, HTML5, CSS3, Bootstrap 5, Tailwind CSS, Responsive Design, Flexbox, CSS Grid

Backend Integration: RESTful APIs, Axios, Fetch API, JSON

Tools & Version Control: Postman, Git, GitHub

Backend Knowledge: Node.js, Express.js, MongoDB, JWT, Stripe

IDE & Environments: VS Code, Android Studio

PROFESSIONAL EXPERIENCE

React.js Developer | Kushal Technologies, Hyderabad

May 2024 - Present

- Developed responsive and mobile-first user interfaces using React.js, TypeScript, and Tailwind CSS, ensuring a seamless user experience across desktop, tablet, and mobile devices.
- Built reusable and modular React components, improving application scalability, maintainability, and development efficiency.
- Implemented Redux Toolkit for centralized state management, enabling predictable data flow and efficient handling of user, product, cart, and wishlist data.
- Integrated JWT-based authentication with protected routes and session management, ensuring secure user access and authorization.
- Developed dynamic product listing, category filtering, search, and sorting functionalities to enhance product discovery and user engagement.
- Optimized application performance by minimizing unnecessary re-renders, implementing component memorization, and improving API handling efficiency for a smoother user experience.
- Integrated RESTful APIs using Axios for seamless frontend-backend communication and efficient data retrieval across multiple application modules.

ACADEMIC PROJECTS

Project 1: Pudami Stores - Ecommerce Platform for Kids Toys

Tech Stack: React.js, TypeScript, Redux Toolkit, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, Stripe, NodeMailer

Description: Pudami Stores is a full-stack e-commerce application developed for selling children's toys online. Allows customers to explore products, manage carts/wishlists, make secure payments via Stripe, track orders, and authenticate securely. Features product filtering, order management, and automated email notifications.

Project 2: Medical Staff Management - Hospital Appointment Platform

Tech Stack: React.js, TypeScript, Redux Toolkit, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, Axios

Description: HospitalManagementSystem is a web-based application designed to streamline hospital operations by connecting patients, doctors, and receptionists on a single platform. The system enables appointment scheduling, doctor availability management, patient record handling, and role-based access control.

EDUCATION

Bachelor of Technology (B.Tech) - Information Technology

University College of Engineering, Kakatiya University, Kothagudem

Oct 2020 - May 2024

CGPA: 7.2/10

Intermediate (MPC)

Narayana Junior College, Hyderabad

June 2018 - Apr 2020

Percentage: 92.7%

ACHIEVEMENTS

- Delivered React.js features and project modules on time while maintaining high code quality.
- Improved application performance by optimizing API calls and implementing lazy loading techniques.
- Developed reusable and scalable UI components, improving maintainability across projects.
- Built responsive, mobile-friendly web applications providing seamless experience on all devices.
- Integrated secure JWT authentication and RESTful APIs for data security and routing protection.
- Worked closely in Agile environments with cross-functional teams to resolve issues efficiently.
- Received client appreciation for quality delivery and contributing to successful project releases.

CERTIFICATIONS

- Certified in React.js Development - Udemy
- Certified in Front-End Web Development (HTML, CSS, Bootstrap) - Great Learning
- Completed REST API Integration and Web Development Certification - Great Learning
